J&J ONLINE AUCTIONS

OVERVIEW

J&J online auctions are a web based venue for selling all type of merchandise

Auction items are available to a world wide market

Pictures and descriptions are readily available for buyers to view at any time from their computer or mobile device

All bidding takes place online

Auction lots have staggered ending times with a "soft close" to insure maxim realized value for each item

WHAT CAN WE SELL ONLINE?

Construction equipment, farm equipment, vehicles, trailers, industrial machinery, antiques, collectibles, intangible assets, miscellaneous items and more.

J&J online auctions are well suited for smaller quantities of assets or situations where the assets may difficult for the public to access (Small buildings or remote areas)

HOW IT WORKS

All items are set up and arranged into lots and owner codes/ lot numbers are attached to each lot

A complete inventory is created complete with photographs and detailed descriptions

Photographs and descriptions of all auction items are uploaded to our website

The auction is publicized to the world through our advertising program which may include:

- Email blasts
- Online ads
- Printed ads
- Mailed brochures
- Direct target market contact

The auction is available for viewing and bidding immediately after upload.

Once an auction is open buyers may place their maximum bid amount and allow the computer to bid on their behalf or they may wait until near the end of the auction to place their bids.

Lots are arranged in order of closing time, with each lot closing at a specified interval thereafter (usually one minute)

Bidders must register on our website prior to bidding

Lots receiving bids within the last three minutes will remain open as long as there is active bidding

Successful bidders are notified by email after the close of the auction.

Payment can be made via credit card or wire transfer

After payment is received paid receipts and release tickets are emailed to the buyers

Successful bidders must pick up their items on the specified day.

Buyers who do not pick up their items are still obligated to pay for them

J&J Auctioneers will assist buyers with shipping arrangements

After the auction J&J Auctioneers will submit payment for all items sold with one check along with a complete accounting of all items sold.

WHY A J&J ONLINE AUCTION?

Ability to reach an unlimited number of buyers

All preparation is completed in advance

No auction is too small

Buyers can bid at their leisure

Decreased travel expense for buyers

Merchandise can be anywhere in relation to its potential buyers

Weather is not an issue

Overcrowding is not an issue - all bidders have the same opportunity to see the items being sold

Lower seller cost due to:

Decreased transportation cost (Most items can be sold in their current location)

Lower set up and make ready cost

Minimal load out cost (most items are removed at buyer's expense)

Fewer sale site cost (portable toilets, concession, security etc.)

Seller does not have to attempt to collect payment from each individual buyer

Seller does not have to photograph and describe each item to be sold

Seller does not have to arrange shipping
